RE: NAMI-Montana Resource Library

Ignorance perpetuates stigma and discrimination. Knowledge is power. For these reasons NAMI-Montana is committed to its library resource project in order to educate consumers, families and the public about severe mental illness. We work diligently to encourage support, build informed advocacy, promote research and reduce the stigma associated with severe mental illness.

Videotapes and audiocassettes may be borrowed for three weeks at a time. Books are due after three weeks. If difficulties are encountered with the resource material, please let the library know as soon as possible.

Library resource materials are for education purposes only and are not to be used commercially.

A fee is not charged for the use of the material, but we ask you to pay the postage on the items you return. One way to show appreciation for our efforts, though there is no obligation, is to send a donation to help continue expansion of the resource library. A second way is to join a local affiliate of NAMI. A list of current NAMI groups is available through the library.

Thank you for caring enough to stay informed about severe mental illness.

Sincerely yours,

*The NAMI - Montana Library Committee*
